1. Show Pricing In Advanced Search

VallenIQ (VIQ) now shows pricing when parts are looked up in Advanced Search, which may help save steps in the quoting process.

Users no longer need to add part numbers into existing projects or create new projects to find pricing information. Instead, they can look up availability, price, and cost information in a single location.

1.1 Advanced Search In Navigation Bar

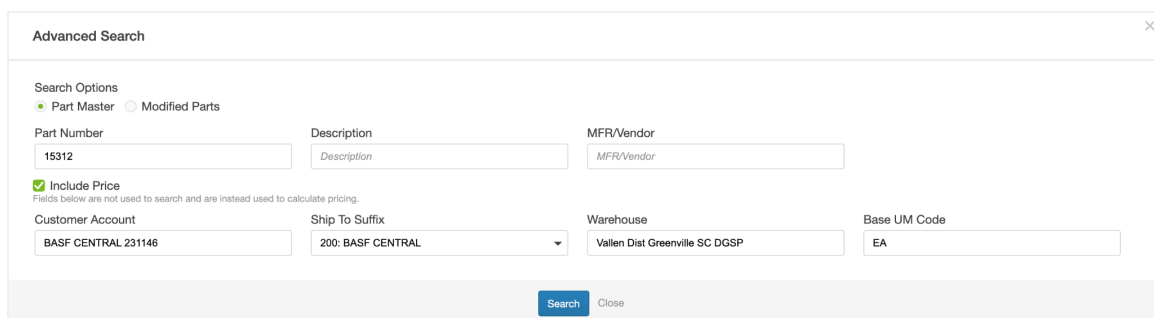

To see pricing in Advanced Search, select the new “Include Price” checkbox:

The screenshot shows the 'Advanced Search' dialog box. Under 'Search Options', 'Part Master' is selected. There are three input fields: 'Part Number' (containing 'Part Number'), 'Description' (containing 'Description'), and 'MFR/Vendor' (containing 'MFR/Vendor'). Below these fields is a checkbox labeled 'Include Price', which is highlighted with a red rectangle. At the bottom right are 'Search' and 'Close' buttons.

In order to receive pricing from SX.e, the application will ask you to populate the necessary header fields to retrieve pricing.

Fill in the four new fields in addition to the Part Number, Description, and/or the MFR/Vendor search criteria before you search.

This screenshot shows the 'Advanced Search' dialog box with more fields filled out. The 'Include Price' checkbox is now checked. Below it, a note states: 'Fields below are not used to search and are instead used to calculate pricing.' The fields are: 'Part Number' (15312), 'Description' (empty), 'MFR/Vendor' (empty), 'Customer Account' (BASF CENTRAL 231146), 'Ship To Suffix' (200: BASF CENTRAL), 'Warehouse' (Vallen Dist Greenville SC DGSP), and 'Base UM Code' (EA). 'Search' and 'Close' buttons are at the bottom right.

It's important to note that these “Include Price” fields are not used to narrow down your search results. Instead, they are only used to request pricing from SX.e

Company Confidential

61 S Fair Oaks Ave, Suite 200, Pasadena, CA 91105
p: 626.793.7732 | f: 626.793.7914 | w: www.supplyframe.com

This means that populating Base UM Code and Warehouse, for example, will not filter your search results by the Base UM Code or Warehouse selected.

Company Confidential

61 S Fair Oaks Ave, Suite 200, Pasadena, CA 91105
p: 626.793.7732 | f: 626.793.7914 | w: www.supplyframe.com

The same details discussed in section 1.1 applies to this location, except for the following:

- Results can't be added to other projects
- Users can instead replace the current part number with a search result
- Or a search result can be added to the current line item as an alternate (assuming the project setting 'Alternates Allowed' is set to 'Yes')

2. Paste Sort IDs Into Ref # Search

Oftentimes, customers will add a "Sort ID" (or similarly named) column in their RFQ files that number the line items in the list.

Users are now able to copy and paste the numbers in these columns from customer RFQs into the Ref # Search bar in Project View, to make the process of finding these lines in VIQ easier:
