## 2. SL (Stock Load) Date

VallenIQ now supports SL (Stock Load) Dates in the application. SL Dates represent the date the vendor price file was last processed for a particular non-stock or catalog item.

Referencing these dates may help determine whether the vendor needs to be contacted in order to receive updated information.

The SL Date field appears in Expand View underneath the RPC Change Date field:

Ref #	Req. Part #	Req. MFR/VEN	Quoted Part #	Vallen MFR/VEN	Avail. Qty	Req. Qty	Unit Price	Quote Price	Cost	Quote Cost	GP%	Extended Price	Status

### 3. Vendor Cost Expiration

Users can now add Vendor Cost Expiration dates in the Create & Update tab of Quoted Part # modal.

When new vendor price files are received from vendors, expiration dates can be added to VallenIQ part records using the Update Part and Create New Part features.

*Company Confidential*

61 S Fair Oaks Ave, Suite 200, Pasadena, CA 91105  
p: 626.793.7732 | f: 626.793.7914 | w: [www.supplyframe.com](http://www.supplyframe.com)

To add a new Vendor Cost Expiration date to your line items, populate the date using the following new field in Create & Update tab:

The screenshot shows a software interface with a 'Create & Update' tab. At the top, there are three tabs: 'Multiple Vallen Matches (35)', 'Did you mean? (101)', and 'Advanced Search'. Below these are three buttons: 'Create & Update' (selected) and 'Alternates'. The main form area is titled 'Part Options' and includes a 'Create New Part' button and an 'Update Part' button (selected). The form contains several input fields: 'Manufacturer Part Number' (10075), 'Vendor Part Number' (10075), 'Vallen Part Number' (10075), 'Cost (Replacement)' (11.78000), 'Purchase UM Code', 'Pack Quantity' (1), 'Base UM Code' (EA), 'Lead Time (Days)' (14), 'Vendor Cost Expiration' (highlighted with a red box), 'Manufacturer' (401740), 'Name' (Lawson Products), 'Vendor' (401740), 'Vendor Name' (Lawson Products), 'Product Category' (600), 'Name' (Fasteners), 'Product Line' (1), 'Name' (LAWSON PRODUCTS), 'Description 1' (10075 THREADED ROD ALLOY), and 'Description 2' (7/16-20). At the bottom right, there are 'Save' and 'Cancel' buttons.

Click into this field, and in the date picker feature, select the month and year, then choose a date.

The screenshot shows a date picker for 'Vendor Cost Expiration'. The date picker is open, showing the month of May 2025. The date 1st is highlighted with a red box. The date picker includes a calendar grid with days of the week (Sun, Mon, Tue, Wed, Thu, Fri, Sat) and dates (1 through 31). The date 1st is highlighted with a red box.

Fill out the rest of the required fields and select save.

## 4. Default Product Line

A new default product line field has been added to part\_master. VallenIQ will reference this field to display default product line values for Vallen part numbers in the following scenarios:

- Product Line & Product Line Code in Expand View

Ref #	Req. Part #	Req. MFR/VEN	Quoted Part #	Vallen MFR/VEN	Avail. Qty	Req. Qty	Unit Price	Quote Price	Cost	Quote Cost	GP%	Extended Price	Status

## 6. Modified Match Flag & Filter

When users update or create new parts via Create & Update, we show a new flag titled "Updated Parts" or "Created Parts" in the Quoted Part # column.

Ref #	Req. Part #	Req. MFR/VEN	Quoted Part #	Vallen MFR/VEN	Avail. Qty
26	RPN 198817 <a href="#">LAST PICK</a>	NO MFR NO VENDOR	MPN 198817 VALLEN PN 07934059675 VENDOR PN 198817 59675 SILICONE RTV R ED 300ML LOCTITE UOM EA <span>■ Last Picks</span> <span>■ Updated Parts</span>	MFR HENKEL CORPORATION CODE 79340 VENDOR GRAINGER CODE 127929 <span>■ Mfr Notes</span> <span>■ Vendor Notes</span>	29

However, prior to this release, if these same parts were loaded into line items elsewhere in VallenIQ, we were not indicating to users that these parts were updated or created part records.

Visually, these parts would be indistinguishable from normal Vallen part\_id records from part\_master, which can cause confusion in the quoting process.

Now, when updated or created parts are loaded into line items, we are now showing a new flag in Quoted Part # column titled "Modified Match."

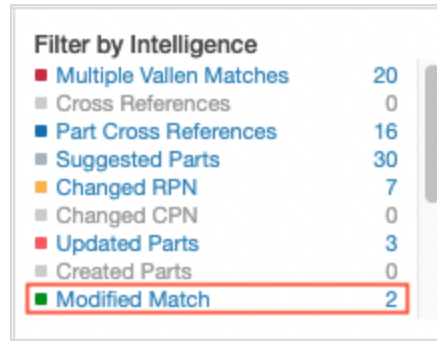

This indicates that the automatched part or the part you've manually loaded into your line item is either an Updated Part or a Created Part.
